

Darius Bigbee

Technical Artist

Contact information

West Lafayette, Indiana, West Lafayette, US, 47906 • dariusbigbee12@gmail.com • 317-488-8192

Professional summary

Technical Artist with 7 years of dynamic experience in game development, adept at crafting immersive experiences through advanced AI systems and innovative 3D modeling. Proficient in C#, C++, and Unity, with a proven track record in enhancing gameplay through collaborative efforts and tool development. Committed to pushing the boundaries of virtual reality and interactive environments, driving forward the evolution of digital entertainment.

Employment history

Intern

Project Final Boss Corp, West Lafayette — Feb 2021 - Feb 2022

- Developed advanced AI systems that used perception of the environment to control behaviors. Developed a climbing mechanic that expanded character movement capabilities, elevating the overall user experience.

Lead Programmer

Crisis Response Leader Training (CRLT), West Lafayette — Jan 2020 - Jul 2020

- Analyzed player feedback to refine game systems, driving substantial improvements in gameplay satisfaction and overall ratings.
- Coordinated with artists and designers to align gameplay features, fostering a cohesive development environment and on-time project delivery.
- Maintained rigorous documentation of code changes and system updates, ensuring seamless transitions and knowledge transfer across teams.

3D Modeler

Purdue Polytechnic Institute, West Lafayette — Jun 2019 - Aug 2019

- Collaborated with developers to optimize asset integration, resulting in smoother performance and improved user experience.
- Conducted rigorous testing on 3D assets, identifying and resolving issues swiftly to maintain project timelines and quality standards.
- Implemented quality assurance protocols for 3D assets, achieving measurable improvements in project quality and client satisfaction.

Summer Course Instructor

Purdue Polytechnic Institute, West Lafayette — Jul 2018 - Aug 2018

- Facilitated engaging course sessions, fostering a collaborative learning environment and enhancing student participation.
- Evaluated student progress through assessments, providing targeted feedback that resulted in noticeable gains in performance.
- Facilitated interactive course sessions, boosting student engagement and fostering a supportive learning community.

Education

Master's Degree in Computer Graphics Technology

Purdue University-Main Campus, West Lafayette, Indiana — Aug 2016 - May 2019

Thesis: Interactive 3D modeling in Virtual Reality

Bachelor's Degree in Computer Graphics Technology

Purdue University-Main Campus, West Lafayette, Indiana — Aug 2012 - May 2016

Coursework includes 3D amination and Modeling, Game Development, Programming

Skills

C++	C#
Unity	Unreal Engine
